

Oracle Updates for 9700

The 9700 Security Bulletin contains a listing of select Oracle patches that are directly related to the 9700 applications and have been tested against the 9700 applications to validate there are no issues or identify any updates that should NOT be installed. The list is not inclusive of ALL Oracle patches. Customers can load other Oracle patches as MICROS does not expect them to affect 9700. This report is updated quarterly for patches released and YTD cumulative.
