## Security Enhancement Notice

Adobe Acrobat has recently issued a security enhancement for its product. In order to patch this security enhancement, you must upgrade to Adobe Reader version 9.3.3. For more information on this security enhancement, please visit the Adobe web site at the link shown below:

<http://www.adobe.com/go/apsb10-15>

You can download the latest patched version of the Adobe Reader 9 from the link shown below:

<http://www.adobe.com/support/downloads/detail.jsp?ftplD=4700>

MICROS strongly recommends that its Opera customers who have installed Adobe version 9.x install this Adobe security enhancement at their earliest convenience.

Adobe is providing this security enhancement software at no charge and it can be self-installed. The installation of this Adobe enhancement by MICROS personnel is a scheduled and chargeable service.

Opera customers who wish to engage MICROS to deploy this Adobe security enhancement for them can contact their local MICROS sales representative to order and schedule the installation.
