

Effectively manage all property inventory bringing a new level of efficiency to your operation.

Real Time F&B Management

- Bring efficiency to daily workflow
- Manage hospitality food costs by an industry-designed application
- Implement tighter controls through out the operation
- Daily sales data is automatically imported from the POS
- Stock reduction based on actual sales
- React quickly to discrepancies with real-time information
- Record and monitor waste and spillage

Enhance Workflow Efficiencies

- Multi-level purchasing authorization to monitor cash flow and minimize overstocking
- Transmission of Purchase Orders via email / fax
- Enhanced B2B-Interface direct to supplier(s)
- Implement paperless internal requisitions using the intuitive MC web client

Efficient

Analytical Data for All

- Numerous facets of analysis from cost of sales to revenue analysis
- Stock on Hand, Ordering Templates and Par lists also available
- Information can be reviewed per outlet, per property, or over entire portfolio
- Become pro-active rather than re-active with real data analysis
- Increase validity of data for all departments with an interface to the Back Office system
- Minimize labor intensive month-end reconciliation and accounting processes
