

# Cell Phone Paging

## Raise Restaurant Revenues

The JTECH GuestAlert® system with Call4Sure™ efficiently manages customer flow and waiting guests.

Give your guests the ability to wait in and around your restaurant, and call them on their cell phone when a table becomes available.

With Call4Sure, not only can you call guests cell phones but they can also respond to confirm their intended return.

### GuestAlert with Call4Sure Allows You To:

- Maximize revenues, especially during peak periods
- Improve the guest waiting experience
- Minimize pager system investment costs
- Provide superior service to your guests

# Service by You. Efficiency by JTECH.

JTECH's wireless guest paging system is the ideal tool to silently notify guests that their table is ready.

Call4Sure™ integrates with the GuestAlert® wireless messaging systems to deliver added value and flexibility.

In addition to calling waiting guests on their cell phone, Call4Sure also gives customers the ability to accept or decline the table, letting you know of their status immediately so you can best accommodate all waiting guests.

## Call4Sure Features:

GuestAlert Transmitter with Call4Sure

## Available integrated pager options

**"GuestPass is much easier to handle...it's lighter and easy for the customer to hold. The 'out of range' and 'search' voice functions are very helpful. I also like the fact that I can change the rechargeable battery myself, eliminating any down time."**
